

SMART TIPS

WHEN USING THE INTERNET

Always keep your name, address, mobile number and password private - it's like giving out the keys to your house!

Meeting someone you have contacted only on the Internet is dangerous - you must tell a parent or guardian!

Accepting emails or files from people you don't know or trust can get you into trouble - they may contain nasty stuff!

Remember someone online may be lying and not be who they say they are - if you're worried, get out of there!

Tell your parents or teacher if someone or something makes you feel uncomfortable or worried!
